COURSE OVERVIEW

Build your online presence and showcase your brand with a professional website with ease and efficiency and bring your website ideas to life with a user-friendly drag-and-drop interface without any coding knowledge or experience.

What is Bootstrap Studio? Bootstrap Studio is a robust and user-friendly drag and drop web design and development application that empowers designers and developers to create responsive and visually stunning websites with ease. It is an indispensable tool for professionals and beginners alike, offering a range of features that simplify the web design process.

The Bootstrap Studio is built on top of the hugely popular Bootstrap framework, and exports clean and semantic HTML.

The Bootstrap Studio for Web Designer course focus on drag and drop and addressing the participants that do not have any experience using HTML or CSS coding skill and yet want to build a nice looking and responsive website for corporate or personal use.

Some of the key features includes:

- ✓ Drag-and-Drop Interface
- ✓ Built-in Bootstrap Framework
- ✓ Responsive Design
- ✓ Extensive Component Library
- ✓ Themes and Design Styles
- ✓ Export and Deployment
- ✓ Online Community and Support and many more
